Attention: Casetracker123
Thomas Steed

I am pleased to write this testimonial for Casetracker123. For the past two years, Attorney Network International has benefited greatly by utilizing Casetracker123. The expertise of the system has provided us with outstanding results.

The software is very easy to use and has allowed my sales representatives to work remotely from their various locations. Further, it gives me the ability to manage their productivity and oversee everything they do. The system has simplified the process of forwarding claims to our attorneys and, in turn, getting timely updates from them. It automatically updates our clients on any activity on the claims. The software has eliminated the need for us to call the client to apprise them of the status of claims. Additionally, our clients like how often they are provided with updates on their claims.

The follow up and technical assistance have been excellent. Any requests for system adjustments, and/or related enhancements, have been made in a timely fashion. We have come to rely on the expertise of Casetracker123. Each day we are assured that both the level of knowledge and professional skills are always available, enabling us to meet all of our goals.

I would recommend the use of this system to anyone; should you have any questions, or need additional information, please do not hesitate to contact me.

Best Regards,

Les J. Kirschbaum
President
Attorney Network International
